A forthcoming Computer Engineering graduate with a passion for web development, combines technical acumen with a creative flair. Armed with a solid foundation in computer science concepts and possesses enthusiasm in various web development technologies.

EDUCATION

Vidyavardhini's College Of Engineering And Technology

2021 - 2024

Bachelors of Engineering, Computer Engineering – 8.63 CGPA (Till 6th Sem)

Mumbai, India

BHAUSAHEB VARTAK POLYTECHNIC

2018 - 2021

Diploma in Computer Engineering– 96.23%

Vasai, India

SSC

2018

Percentage – 90.40%

Vasai, India

SKILLS

Web: HTML, CSS, Javascript.

Others: Data Structure & Algorithm, Problem Solving.

Languages: C, Java.

Database: MySQL

Platforms/Tools: GitHub, Git.

PROJECTS

Sorting And Categorization | Python

Jan 2023 – Apr 2023

- Developed and implemented an image clustering system utilizing advanced feature analysis techniques, resulting in the formation of distinct clusters based on similar image attributes, enhancing image retrieval and organization capabilities.
- Implemented an image recognition algorithm to efficiently categorize and sort a large volume of similar images, reducing manual sorting time by 80% and increasing overall productivity of the team.

Intelligent System For Identification Of Mallicious Websites | Html, CSS, Javascript, Python

Jun 2023 - Present

- Developed a Chrome Extension to improve user security. This intelligent system will be able to identify malicious executable code or links inserted into the webpage's HTML content.
- The system that can detect the phishing URL effectively.

ACHIEVEMENTS

- Qualified **GATE – CS - 2023 (AIR 4481)**.
- Achieved **Top 50** in VCET's Multiverse of Hacking organized by Vidyavardhini's College of Engineering and Technology.
- Qualified in **Round 2** for Flipkart's 5.0 software development track hiring challenge organized by Flipkart.
